Company Backgrounder

Spotlight Technology, LLC is an exciting company focused on developing data warehousing, BI, analytic and visualizations products and services that are optimized for the Teradata environment.

Spotlight's founders have more than 40 years of experience in software development and more than 30 years of experience with Teradata technologies. The company's products run on all the latest releases of the Teradata database.

Company Principals

The principals of Spotlight Technology include:

- President/CEO - Lance Miller
- CTO – Gary Richard

Spotlight's President/CEO is an experienced executive with roles as a CIO, CTO, VP/Software Development, and General Manager. His career includes various hands-on roles in kernel, database, and end-user tools development. He has worked for leading companies including Honeywell, Cray Research, Convex, Solbourne, Woodward-Clyde, Customer Insight, and Teradata. Mr. Miller was instrumental in the initial OEM agreement between Teradata and Honeywell during the formative years of Teradata and he led the team that ported the entire Teradata product to Honeywell's systems. Mr. Miller has a BS in Computer Science from the US Air Force Academy and an MBA in Strategic Marketing/Finance from Chadwick University.
